Sir,

I have the honor to submit for the consideration and orders of the Chief Commissioner an application from Dr. Heard, the Superintendent of the Central Jail, for permission to send to England for two printing presses with type and materials at a cost of Rupees 2329-12-, as per enclosed Estimate.

2. Dr. Heard stated in February that he had more work than could be printed at one press; and Dr. Oswald's return for the quarter ending the 31st of March shows a considerable increase both of work, and of profits since the date of Dr. Heard's letter, the profits in March having been about Rupees 167.

3. Under these circumstances I beg to recommend that the two presses, type, and

other

other materials be ordered according to the estimate which Dr. Heard has framed with the assistance of the Superintendent of the Government Press. But I would suggest that the order had better be made through the Superintendent of the Government Press, who has already had occasion to purchase presses in England, and whose experience in making such purchases would be useful.

Sir,

I have the honor to request permission to order two additional printing presses from England. I have got more work at present than I can work off with one press, and there is every prospect of a large increase.—

The profits of the press for the past month after deducting the pay of the Establishment amounted to Rs 107-14-8. The "Advertiser" alone produced a profit of Rupees 79-2-8. This month, the profit from that source will at least be Rs 125.— In addition to the Rs 107-14-8 actually received, a considerable amount of work was commenced, the price of which will

will be realized during the current month and 80 Rupees worth of Talook forms were printed and laid up in Store.

It must be also borne in mind, that the Prisoners Commenced printing during the past months for the first time, and were consequently rather slow at their work, I shall therefore be within the mark in estimating the profits of the Press for the Current Month at at least Rs. 220.

Secretary's Docket No. 720/93 8/10 "Instts"

(1) forwarding for expression of opinion a letter No. 211 of the 6th "Instts" from the Jud. Comr. suggesting that type & materials may be ordered from England for the use of the Bangalore Central Jail.

(2) Intimating also that work may be transferred from the Govt. Press to the Central Jail when there is more work on hand than can be executed with sufficient rapidity at the former institution.

In reply to the 1st portion of the above, beg to remark that the detailed Estimate of

of the cost of the Materials forwarded by the Govt. Supt. of the Central Jail is in somewhat higher than we have been accustomed to pay as will be seen from the enclosed list A.; Recommends the purchase of 2 Demy Presses in lieu of one Royal and one Foolscap Broadside Press as they would only cost 10 £ extra and be more useful; also suggests sending for a larger quantity of Small Pica and Long Primer type together with a few other materials noted in List B.

With reference to the 2nd portion of the docket above quoted has the honor to state that he will at once avail himself of the permission to send work to the Jail when there is more in hand at the Government Press than can be executed within a given time. At the present moment there are several urgent requisitions on hand which cannot be complied with all at once and have moreover been retarded by the absence of some of the Compositors and the resignation of 6 others for employment at the "Spectator Press."
